

WESTERLY

Under the present rulers of the West, the police department is making the shift for patrol duty, each officer is required once a month to do night duty until 1 o'clock in the morning and come back on duty again at eight o'clock the same morning for the entire day.

Patrick Walsh of New London and Miss Mary Quinn of Westerly were united in marriage Wednesday morning at the church of the Immaculate Conception by the pastor, Rev. Laurence J. Kelly. The bride was attended by Miss Catherine H. Healey, Thomas W. Quinn was best man. Following the ceremony a breakfast was held at the home of Mr. and Mrs. Michael Quinn of John street, after which the couple left for a honeymoon trip to New York city. They will make their residence in New London.

An inter-class track meet is to be held by the students of Westerly High school this (Thursday) afternoon at Riverside park. Running, high jumping, pole vaulting and weight throwing will be numbered in the event, and it is expected that such class will have a large representation present to try for the honors. The contents promise keen competition and should furnish plenty of thrills and at the same time Coach Wilder will be enabled to get a good line on his material for future track meets with other schools.

Six men who came late Tuesday afternoon and evening and asked the police for lodging for the night, were put up at police headquarters on Union street. The men were all respectable looking individuals who reported that they had been out of work for some time, and were seeking employment.

John J. Connolly of Stonington, and Miss Anna, Elizabeth Keenan of Westerly were united in marriage Wednesday morning at St. Michael's church by Rev. John J. Fitzgerald. The bride was attended by her cousin, Miss Margaret Connolly, and Edward J. Coughlin of Stonington was best man. During the mass, Martin H. Spellman sang Ave Maria and Oh Promise Me. The bride was dressed in white, her veil being caught in place with orange blossoms. She carried a shower bouquet of roses and sweet peas. The bridesmaid wore a pink frock with georgette hat to match, and carried pink roses.

Miss Kathryn Keenan, sister of the bride, was flower girl, she wore a blue dress and carried a basket of sweet peas. Following the ceremony a wedding breakfast was served at the home of the bride's father, after which Mr. and Mrs. Connolly left for a honeymoon trip to Niagara Falls.

Miss Connolly is a graduate of the Westerly Business college, and has been a stenographer at the office of the Westerly Light and Power company.

At the meeting of Narragansett Council No. 21, K. of C., Tuesday evening, a committee was appointed to organize a baseball team to represent the local council during the coming season. A manager will be elected to arrange games with other teams in the vicinity. The committee in charge of the work comprises John H. Gallagher, James Donahue, James Jessup, Daniel Kelleher and John R. Shea.

James J. Flunkett, of White Rock, who was arrested Tuesday by Constable John Greenwood was brought before Judge Judge Oliver H. Williams in the Third District court Wednesday morning, charged with being intoxicated. He pleaded guilty and was fined \$2 and costs, amounting to \$4.

The Westerly Cycle club made plans to give the Elven Opera House to a full house. There were ten songs, cornet, violin and trombone solos and clever jokes and catchy ballads by the members. Eugene O'Neill, Harry Bliven, Charles S. Howe and Edward Brown.

The chorus comprised G. E. Spargo, Byron Harrison, Frank E. Collins, Barclay Robertson, Joseph Bowles, Seth Mayne, Edwin Case, Henry Harvey, Samuel Brown, Carl Brock, Thomas Patton, James McCormick, Donald Whaley, William Wells, William Phillips, Henry Barnes, William Fishwick, Thomas James, William Rathel, Ed Rhodes, Percy Croston, Thomas Sutcliffe.

The interlude was by Bernard J. Christy. The program follows: Overture, Cycle Club orchestra, Dan-iel Cranfield, John Sutcliffe, Reginald Horn, Robert Kessel, Charles Redford, Simon Kinney; opening chorus, "Mammy's Kiss," entire company; and song, "I Miss My Mammy's Kiss" and "Know She's Missin' Me" William F. Donovan; cornet solo, selected, Reginald

Horn; specialty, sketching, Percy Cropton; tenor solo, "Annabelle Lee," Max Rathel; and song, "Boondocks," Louis Ford; Edward Brown; violin solo, selected, John Sutcliffe; and song, "Mammy," James J. Moore; tenor solo, "Close of My Heart," Thomas James; and song, "I Never Knew," Charles S. Howe; specialty, "A Little Bit of Everything," Edward Rhodes; baritone solo, "Broadway," Daniel Cranfield, assisted by double quartet: Messrs. James Spargo, Cranfield, Rathel, Brock, Robertson, Gully, Kinney; and song, "All She Could Say Was Un-Seen," Eugene O'Neill; trombone solo, "Commodore Polka," Robert Kessel; specialty, "Pick-a-One-Man Band," Charles S. Howe; grand finale, "My Home Town," entire company. Business manager, Walter Snyder; director, Simon Kinney; stage manager, Harold Higginbotham; electrician, Henry Huggins; musical director, G. E. Spargo; property man, William Wile.

That about 120 dogs in the town of Westerly are going about the streets without collars and tags with the owner's name and address and that their owners have not complied with the law in regard to registration and taking out licenses was brought out in the April meeting of the board of trade Tuesday evening. A committee was appointed to refer the matter to the town council.

Attention was called to the need of enforcement of the town ordinance requiring permits for bonfires. The meeting was called a prosperity meeting in keeping with the week of that name which is now being observed. At the opening President Mills declared that this was the proper time to boost. Business seems to be looking up all throughout the country, the word prosperity is being generally used.

C. W. Campbell for the Trades and Manufacturers committee stated that his committee had been in touch with the Chandler Construction Co., engineers and manufacturers of machinery, 31 State street, Boston, with a view to securing for the company a building suitable for manufacturing purposes. The company made an offer for the Shore line property on Cogswell street, but was unwilling to increase its offer beyond that of another company negotiating for the property.

It was reported that the hospital committee expected to have a definite report for the May meeting. The president appointed A. C. Martin, who has not successfully managed cleanup week in Pawtucket again to represent the west side this spring. Mr. Mills will make arrangements for the Westerly side some time this week. It was announced that Henry R. Palmer of Stonington would address the day meeting.

Everett E. Whipple and Clifford Campbell were appointed to bring the matter of licensing of dogs before the town council at its next meeting.

The condition of Mrs. John Edmond who is seriously ill at her home on High street remains unchanged. John Curtin who is employed in Philadelphia is visiting his parents, Mr. and Mrs. Michael Curtin of John street. While visiting friends on Pleasant street Tuesday afternoon, Mrs. Margaret Morrissey of West street fell, and dislocated her hip. Frank Tierney, who has been spending the winter in Florida, was at Watch Hill Wednesday to look over his store. The Westerly High school baseball team will play the first game of the season Friday afternoon with the Alumnus.

Miss Helen Keenan who has been employed in Hartford during the winter months, has returned to her home on Rocket street for the summer. George A. Comer will give an illustrated lecture on "Whaling and Trading in the Arctic" to members of the Cycle club, at the rooms, Friday night.

MONTVILLE

The campaign for the Irish relief fund is completed and as is usual in Montville the town far exceeded its quota, \$340.90 has been subscribed. Dr. J. J. Donohue, chairman of the committee and his helpers are most appreciative of the generous support to the object given by the townspeople. Following is the list of contributions and the donors:

Brief State News

Deep River.—The village mail delivery in town was inaugurated April 1.

New Haven.—Dr. Thomas B. Osborne of New Haven is among the arrivals at the Hotel Gramatan, Bronxville, N. Y., for a short stay.

Avon.—Mrs. Joseph W. Alesh of Avon has returned from New York, where she spent several days with her mother, Mrs. Douglas Robinson.

Madison.—Bert Benedict and George Rathbun, who have been employed at the Hammond state park for the past year, were transferred this week to work at Mt. Tom park.

Winchester.—Representative Charles E. Williams of Winchester, a member of the appropriations committee, will sail today (Wednesday) for a business trip in England for the William L. Gilbert Clock company of Winchester, of which he is general manager. He expects to return late in May or early in June.

Cromwell.—John Cardarelli has concluded his duties at A. N. Pierson's, Inc., and has gone into business for himself. The A. N. Pierson firm has discontinued the landscape business and this has been taken over by Cardarelli, who has been in that branch of the business for the Pierson firm for several years.

Bristol.—The Compounce Rifle club entertained Adolph Tupperwein, noted rifle and revolver expert, at a dinner party the other night, many members of the club and guests being present. Following the dinner, adjournment was taken to the range of the club in the basement of Red Men's hall, where Mr. Tupperwein, who has an international reputation, gave an exhibition of fancy shooting.

Banbury.—Popular interest in the Ridgewood Country club and its golf course so far exceeds expectations, even at this early date, that it already appears probable that it will become necessary to limit the entrance for membership. The membership list is approaching the maximum number that the golf course will be able to accommodate. The enroll-

ment up to the present contains 869 names. Windsor Locks.—The main highway leading from this town to East Granby is to be improved under the direction of the state highway department the coming summer. Mrs. Frederick Proudman shipped her goods to Florida last week. Mrs. Proudman and her mother left here Sunday for Palm Beach, where they are to make their home.

Hartford.—Mr. and Mrs. Francis P. Garvan and Mr. and Mrs. Nicholas F. Garvan, formerly of Hartford, were among the 25 persons who had box reservations at \$1.00 each for the entertainment at the Metropolitan opera house Sunday afternoon for the Irish relief fund. The entertainment was regarded as the greatest all-star program ever presented in New York and was arranged by A. L. Krieger, Charles R. Dillingham, George M. Cohen, the Shuberts and E. F. Albee.

Mr. and Mrs. Napoleon LaGassay have returned to Sterling where Mr. LaGassay will work in the mill. John Hart has sold to Sam Lasey the farm occupied by the latter. Isaac Dupre and Mrs. Elise Barr were married last Wednesday and are living across from the church. The agitation by the county agent has resulted in the spraying of many old orchards around Packer. A traveling library has been placed in the Packer post office by the state public library committee. The books are for free circulation. Much appreciation is expressed because of the improvement in the road to Plainfield. It is now in better condition than it has been for years. A special musical vesper service is to be held in the church, Sunday afternoon, April 17th. At this service a cantata will be sung by the full choir of the Plainfield Congregational church.

WORLD DEMANDS FOR U. S.

ELECTRICAL APPARATUS

The whole world is calling upon the United States for electrical machinery and apparatus. It bought from us in 1920 over \$100,000,000 worth of material of this character, including telephones, telegraph instruments, heating and cooking apparatus, motors, insulating and wiring materials, and the thousand and one requirements of modern electrical comforts and convenience. Our sales of this class of material which we statistically designate as "electrical machinery and appliances," amounted, says a statement by the National City Bank of New York, to less than \$20,000,000 in 1914, \$101,000,000 in 1920, and will probably exceed \$150,000,000 in 1921, for the exports are now running at the rate of \$15,000,000 a month—a half million dollars a day.

Telephones alone amounted to nearly \$4,000,000 in the electrical exports of 1920, as against a little over \$1,000,000 in 1914, and incandescent lights, over \$4,000,000 as against \$1,500,000. Of incandescent lamps the number exported in 1920 was over 16,000,000 against less than 2,000,000 in 1914; of electric fans in 1920, 72,000, valued at \$1,365,000, against 22,000 valued at \$295,000 in 1914, and electric motors, the biggest single item of the group, \$12,245,000 value in 1920, against \$2,500,000 in 1914.

Of course, aside the bank's statement, a trifles of \$100,000,000 or over \$150,000,000 exports for the current year, is not a large factor in our present tremendous exportation of manufactures, which amounted to over \$1,000,000,000 in the calendar year 1920, but it does illustrate the growth in our activities in supplying up-to-date and high grade manufactures

to the outside world, and at the same time the highly commendable habit which the outside world has developed of coming to the United States for material of this character. For it will be observed that the total value of electrical machinery and appliances exported in 1920 was more than five times that of 1914.

Illustrative of the absolutely world-wide extent of the demands upon us, adds the bank's statement, at Washington, of the details of our distribution of material of this particular class of manufactures shows that we sent to Brazil 1,915, 2,847,000 "catal" lamps; electric lamps for lighting her streets, homes, and business places; to Argentina 1,427,000; to Mexico 1,812,000; to Canada 2,441,000; to Australia and New Zealand 1,110,000; and to such distant and less accessible markets as the Dutch East Indies, 252,000; India, 251,000; Straits Settlements, 21,994; Hong Kong 52,000; Siam, 8,000; French Oceania 3,000, and Iceland 13,000. The telephones exported went to no less than 25 countries and colonies, including the United States, all of the Asiatic countries, British French, Dutch, American, and Japanese islands in the Pacific, Iceland at the far north, the Falkland Islands at the extreme south, and Ecuador, as its name implies, directly across the Equator. One other interesting point—not for the purpose of "kneeling" at neighbors, but, just for the encouragement of our own manufacturers—is that the export of similar materials from our present chief rival in that line, Great Britain, were in 1920 only \$15,000,000 as against \$25,000,000 in the year immediately preceding the war, her exports in 1919 having barely doubled during the period in which our own quadrupled.

Isle of Man's Old Pump

On the quaint and picturesque Isle of Man, made famous by Hall Caine's fiction, an ancient pump of the chain-potter variety, built into a masonry abutment on the face of a rock cliff, lifts its endless load of water some eighty feet from the pool below, says Popular Mechanics Magazine.

For many years a big steam engine of obsolete form, slow and extravagant of fuel, attended to the duty of turning the chain shaft. But now the old boiler and cylinder are gone, and in their place a modern wind motor has been installed. Its slim, efficient steel form rises from the cliff top in striking, yet not inharmonious contrast with the primitive mechanism that marks the cradle of man and nature.

The whirling, twenty-six foot wheel of the new motive power now is in a year and a half, gallons of water an hour at an average figure, and it is significant of the value of modern methods that the saving of fuel, no longer needed for a steamy boiler, soon paid the cost of the mill.

A SALE OF THE
New Apron Dresses
BEGINS TODAY

Time was when an Apron was an apron, and nothing more. A little addition here, a subtraction there, a slight "jazzing up" of the entire design—presto change—the apron has become a porch dress.

We present for your choice four specially designed "Apron Dresses" at four extremely low prices. You will need several of them, for the coming warm days.

BUY THEM NOW

"Love Nest" Aprons
Breakfast Coat Style
\$1.98

Sort of Japanese, coat design worked out in pink, blue or lavender line, and daintily finished with white pique collar and cuffs. It opens in front, has loose sleeves and ties around just as the Japanese garments do. It is really a very smart house garment at a very small price.

"Sweet Home" Aprons
A Genuine Apron Dress
\$1.98

This design is really more of a dress than an apron and yet it has some of the apron characteristics. It is made of pretty plaid Gingham, finished with rick rack braid and is a really clever dress. At the price, \$1.98, it is a genuine bargain.

The "Tie About"
Dainty and Comfortable
\$1.69

Made with checked Gingham, in pink, blue, lavender and black and white checks. Finished with white pique collar and cuffs. There is a large bow in the back which relieves any appearance of plainness. It is a very pretty dress.

"Happy Home" Apron Dress
Something New for Summer
\$1.49

A snappy little dress with short sleeves, square neck, wide belt and large comfortable looking pockets. There's a big, pretty bow in back which gives it a very smart air. Made of pretty figured Percales in a wide range of patterns.

A One-Day Sale of Corsets For Today
HIGH-GRADE CORSETS \$1.89

We managed to secure a few dozen of these splendid corsets, which should be selling for \$2.50 right at the present minute. We have made no attempt to exaggerate the value, but right now you are paying \$2.50 for the very same thing. The corsets are made of pink coutil, with low bust, long hip and elastic insert. We have all sizes from 21 to 26, but urge an early selection, as the ten dozen we have will not last long.

Here Is Good News

A western physician has discovered a harmless Pile remedy known as Hem-Rid. In many cases of year's standing all distress quickly disappeared. Leo & Osgood Co. sells it with money-back guarantee.

Next Monday
soak your clothes clean

With this new product there is
no hard rubbing—no boiling

YOU will never again need the old wash-board and cake soap, the boiler, soda, scrubbing brushes and pails.

A new way of washing clothes is replacing the old exhausting methods that have made women dread washday for centuries.

This new way just soaks the dirt out of your clothes. You don't have to rub for hours to get things clean. You don't have to boil to get them white.

Just do next week's washing with Rinso. Rinso is an entirely new form of soap in fine granules. It is made of higher quality ingredients than have ever before been used in a soap product for the family washing. There are no harsh chemicals to eat the

fabrics, nothing that can injure them, no particles of solid soap to stick to the cloth. Just pure, cleansing granules, so mild they do not even redden your hands.

Rinso softens hard water. If you use hard water make an increased amount of the soap solution and continue adding it to your tub of cold water until you have a good rich suds.

Use Rinso on the hard things—the dish towels and kitchen aprons—the children's grubby play clothes. You will find it as remarkable for the family washing as Lux is for silks, woolsens and all fine laundering.

Your grocer and the department stores have Rinso. Lever Bros. Co., Cambridge, Mass.
